

## INSTRUCTION GUIDE FOR CAR/BOAT/RV LIGHTER CORD

---

The Car/Boat/RV Lighter Cord is used to power the weather station using the cigarette lighter in your car, boat, RV, truck, etc.

-  We recommend that whenever you use the Car/Boat/RV Lighter Cord, you have a battery backup installed. The battery backup will prevent loss of memory and data in the event of a power interruption. Consult your manual for instructions on installing a battery backup.

### *To Install the Car/Boat/RV Lighter Cord*

1. Plug the cord into the cigarette lighter socket in your car, truck, RV, or boat.
2. Consult the manual for your weather station for instructions on connecting the power source to your weather station.
