Features

- Heavy gauge steel construction for long-term durability
- Black powdercoat finish for maximum corrosion resistance
- Can be used with factory installed console

Note:

1) This **Vehicle Base** should only be installed if 1) a person never sits in the front passenger seat and 2) the passenger-side air bag is deactivated. Failure to comply with either restriction may lead to serious injury during sudden braking or accidents.

2) Installing this base into 2006-2008 Jeep Liberty vehicles will compromise the vehicle air bag system, possibly endangering vehicle occupants. Seat bolts in 2006-2008 Jeep Liberty are tied into the air bag sensor system. Loosening or removal of seat bolts in the 2006-2008 vehicles will require recalibration by a certified Daimler-Chrysler Jeep service technician.

Item No. **DS-148**
