DOCKING STATIONS AND VEHICLE MOUNTS

## MCS Extension Box

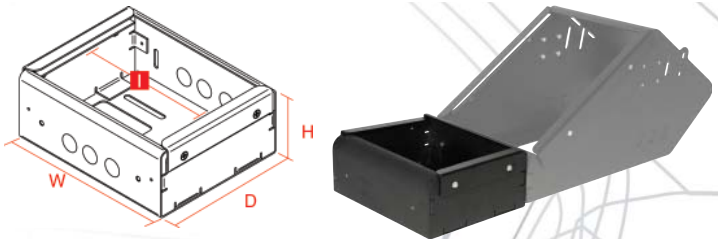

The new extension box attaches to pre-drilled holes in the front of the *ergonomically designed console box* (Item No. MCS-ERGOBOX12) or on either side (front or back) of the *low profile console box* (Item No. MCS-LOWBOX). The extension box can be mounted directly to any MCS Top Plate if used with the EPIC console box line. Other important features include:

- The enclosed design enables communication equipment to be stored securely and safely.
- Pre-drilled holes for use with any Gamber-Johnson cup holder
- Provides mounting space for 1 to 3 radios (7.6" of mounting space)

Placement	Seat Configurations	Drilling Required	No. of Radios	Weight	Exterior Height	Exterior Width	Exterior Depth	Interior Depth
Pre-drilled holes on the front of the <i>ergonomic console box</i> (Item No. MCS-ERGOBOX12) or either side of the <i>low profile console box</i> (Item No. MCS-LOWBOX) or any <i>MCS Top Plate</i> (Item No. 7160-0085 or 7160-0086) for use with the <i>EPIC line of console boxes</i>	Bucket	No	1 to 3 (7.6" of radio mounting space)	4.0 lbs	3.6"	7.2"	9.1"	7.6"

### Features

- Heavy gauge steel construction for long-term durability
- Black powdercoat finish for maximum corrosion resistance
- Enclosed design enables communication equipment to be stored securely and safely
- Can be combined with any Gamber-Johnson console box for additional radio/control head mounting space
- Large cutout holes in bottom and both sides for wiring access
- Multiple cutouts for cigarette adapters
- Faceplates and filler panels are included

**Item No. 7160-0028**
