Picture-in-Picture Display

The SV-LED70WQ4 features an innovative picture-in-picture (PIP) function to optimally display three camera images at once, allowing the driver to focus on one camera while keeping an eye on two additional views. The monitor can also display one, two, three, or four cameras at once in traditional split screen modes. These views can be quickly toggled with a convenient Camera Select button on the front panel.

Integrated Audio

The system activates when the vehicle starts or when the vehicle is in reverse. With the camera's built-in microphone, people behind the vehicle can communicate directly with the driver about possible hazards.

Features

- Auto NTSC/PAL detection
- Auto day/night detection
- Rugged housing rated for 10Gs
- High contrast screen
- Seven menu language options
- Integrated control box with multiple display options and intuitive menus

Warranty Agreement

Safety Vision's standard warranty for new items is one year. Extended warranties and advance replacement agreements also are available. Ask your sales or customer service representative for details.
